Internship Preference

Before you continue to the next section, it is important that you have a clear idea of what three career fields and specific positions you would like to intern in. For instance, if you are interested in being mentored by a lawyer, what areas of law interest you? Take the time to read about the areas of law before narrowing it down to the few that interest you most.

Failure to provide an appropriate level of detail to these answers will delay the search for your potential placement, should you be accepted into the program. Please take time to research and understand your fields and positions of interest before listing them.

***Mrs. Wahl can't guarantee any specific placement but she strives to work with your preferences to help you find a good fit. Need ideas? Check out the 'Career Fields' list the internship website, under the 'Interested Students' tab.
